Convergence 2030 - Healthcare Re-imagined

The
Annual
BHF Southern
African Conference

Draft Programme

Convergence 2030

Healthcare reimagined

Published -2019/04/16

Theme Summary: Beyond the headline-grabbing controversies, a long journey lies ahead, as we navigate the complexities of our history, ideology and reality.

Healthcare is fast evolving in response to demands for better delivery of health outcomes; universal health coverage; improved coordination of care and the growing need for alignment between the private and public sectors. Other factors to consider include unemployment; fierce competition; emerging technologies; cost-containment; access and better quality of care. Succeeding in this tumultuous environment requires significant changes in the healthcare ecosystem, fundamentally altering the role, structure and relevance of all players in the industry. One trend that is facilitating the rapid transformation of the industry is **convergence**, which has facilitated the re-imagining of our system, accelerating multisectoral stakeholder collaboration outside their individual four walls, and redefined industry boundaries by converging business models and leveraging advanced technologies to create more value for the **health citizen**.

We are excited to announce the theme for this year's conference '**Convergence 2030 – healthcare reimagined**'. The conference will reflect on the past 20 years, moving past the rhetoric and reimagining our desired end-state for 2030 and the role of **convergence in defining what our future healthcare will look like**. A huge part of the conference will be dedicated to understanding the role of multisectoral convergence in delivering quality health services and why it is important for scaling up. All **stakeholders, payers, providers, patients, employers and the government are increasingly interconnected**.

Objectives

Defining and understanding our new healthcare ecosystem

- Track industry roadmap – patient-centric system
- Multisectoral scenario planning and action plan

Strengthening accountability

- Empower medical scheme trustees and principal officers with tools to keep up with the rapid changes in the system
- How can we fast-forward gender parity in healthcare?

Defining efficiency

- Harness emerging technologies to efficiently and effectively deliver quality care
- Promote the eradication of fraud, waste and abuse in the system

Health system reform

- Review the need for regulatory change
- Evaluate recent developments and lessons learnt

Programme Monday

Monday, 22 July 2019

'Synergistic convergence is the most important idea we have at our disposal to prevent collapse scenarios and move forward in a nonlinear manner toward an evolutionary society.'

Time	Session Description	Venue
07h00-08h00	Networking - Tea on arrival	Exhibition Hall 8 & 9
Session 1	<i>Why convergence?</i>	Hall 10
<p>Description: Convergence is rapidly transforming the healthcare sector, accelerating multisectoral collaboration. Industry boundaries are being redefined by converging business models that leverage advanced technologies to create more value for the health citizen. <i>'Convergence is more than size and scale. It is an opportunity to build something that is much greater than a sum of the parts. The keynote and guest speakers will showcase how convergence is innovating healthcare delivery.'</i></p> <p>Plenary keynote address</p> <ul style="list-style-type: none"> Understanding the role of intersectoral convergence in the delivery of health services <p>Guest speaker</p> <ul style="list-style-type: none"> Convergence of ecosystem technologies – disruptive innovation <p>Case study 1 – Results: industry collaboration on fraud, waste and abuse</p>		
Session 2	<i>Universal health coverage – beyond our four walls</i>	

- Universal health coverage
Global outlook – *what's working and what's not working*

Networking - Tea break	Exhibition Hall 8 & 9
-------------------------------	-----------------------

Session 3	2030 Roadmap - Sustainable, integrated, patient-centric health system	Hall 10
-----------	---	---------

Description:

Healthcare is fast evolving in response to demands for better delivery of health outcomes, universal health coverage; improved coordination of care; growing need for alignment between the private and public sector; aging population; fierce competition; emerging technologies; cost-containment; access and better quality of care. In this session, panel members will discuss a roadmap to a sustainable, integrated, patient-centric health system.

Discussion points:

- **Fundamentals of a high-value healthcare delivery system – *where are we now?***
- **Patient centricity – *the right care for the right patient at the right time!***
- **Quality and accountability in healthcare – *“creating a culture, not just a check list”***
- **Impact of gender on the health and wellbeing of all people**

Networking - Lunch break	Exhibition Hall 8 & 9
--------------------------	-----------------------

Session 4	Scenario planning 2030 – next-generation health system	Hall 10
-----------	--	---------

Description:

Succeeding in this tumultuous environment requires significant changes in the healthcare ecosystem, fundamentally altering the role, structure and relevance of all players in the industry. To kickstart this session, various groups of experts were engaged to explore the various future states.

In this session, scenario planning results will be presented to delegates highlighting common denominator strategies that would be successful under various scenarios. The results are a starting point to engage further with various stakeholders in the industry to stimulate debate and accelerate alignment as we progress towards universal health coverage.

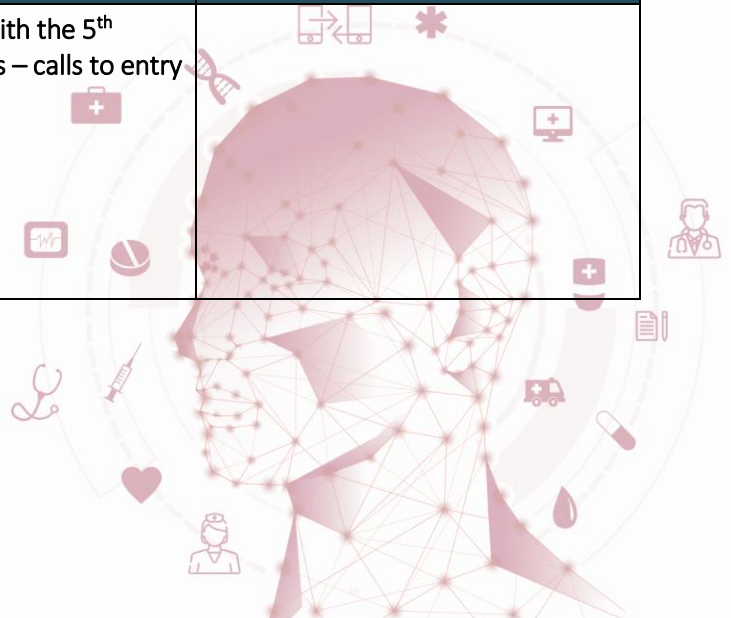

Case study 2

19h00-01h00	5 th Titanium Awards – recognising excellence in healthcare	Exhibition Hall 6 & 7
-------------	--	-----------------------

Join us as we celebrate the heroes in our sector with the 5th edition of our new and improved Titanium Awards – calls to entry close 25 April 2019

Theme: Broadway

Entertainment: Vusi Nova

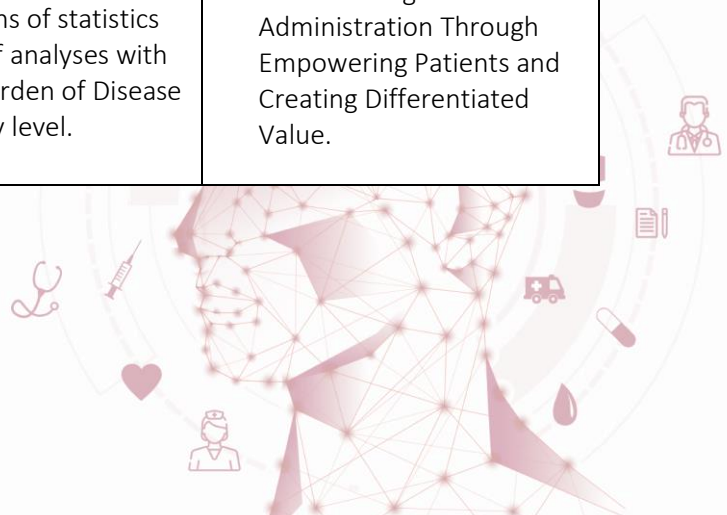

Programme Tuesday

Tuesday, 23 July 2019

'When you are doing something neat, and you're doing it with neat people, and there is that convergence, something amazing will happen.'

Time	Session Description	Venue
08h00-08h30	Networking - Tea on arrival	Exhibition Hall 8 & 9
Session 1	Convergence from different paradigms	Hall 10
<p>Topics include:</p> <ul style="list-style-type: none"> Overutilisation, waste and abuse of medical services: a global perspective, drivers, solutions and the South African context Achieving medicine price transparency Hospital price transparency will make healthcare more affordable "Human resources for Health - Progress, Complexities and Contestations" 		
Networking - Tea break		Exhibition Hall 8 & 9
Workshop 1 Fraud, waste and abuse	Workshop 2 monitoring and Evaluation	Workshop 3 Evolution of 'smart healthcare'
<ul style="list-style-type: none"> The use of blockchain in risk mitigation. Making the referral to law seamless. Reflection and Possible Reforms: Application of the Act and Regulations in the payment of benefits. Managing conflict in the ecosystem. 	<ul style="list-style-type: none"> Social determinates of health. Measuring Medical scheme risk profiles. Trends in mental health. How to achieve consistent interpretations of statistics and results of analyses with respect to Burden of Disease at an industry level. 	<ul style="list-style-type: none"> The state of digital transformation in Healthcare 2019 – <i>What's worth investing in?</i> How is artificial intelligence used in healthcare? Transforming Healthcare Administration Through Empowering Patients and Creating Differentiated Value.

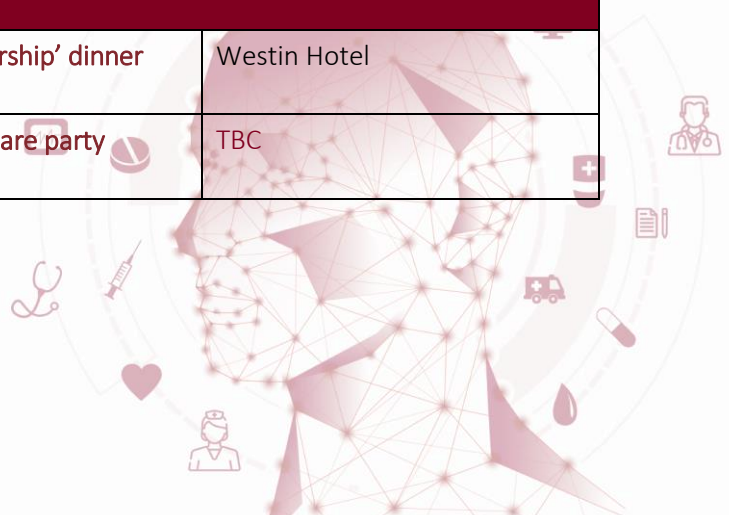

Networking - Lunch		
Workshop 4 SADC workshop	Workshop 5 Mentoring and evaluation	Workshop 6 Breast cancer (Case study 5)
<ul style="list-style-type: none"> Regional harmonisation of regulatory processes and standards. Managing healthcare cost drivers (Case study 3). UHC prospects (Malawi) (Case study 4). Technologies that optimise the claims process in low resource settings 	<ul style="list-style-type: none"> Effective coverage – <i>pilot study results</i>. Implementation of Effective Coverage Framework. Health Economics of Cervical Cancer screening. 	<ul style="list-style-type: none"> A multidisciplinary approach to breast cancer.

Networking – Mid-afternoon tea

Exhibition Hall 8 & 9

Workshop 7 Managing non communicable diseases	Workshop 8 Contracting for value – improving health system performance	Workshop 9 TBC
<ul style="list-style-type: none"> Member experience – a patient diagnosed with diabetes (restricted scheme case study 6). Innovation in diabetes Management – the next big thing. 	<ul style="list-style-type: none"> Value proposition for efficiency discounted options. The devil is in the detail - a value-based contracting model. Implementing the GP Care Cell pilot project: contracting out PHC services in the NHI. 	
AGM: Members ONLY		
18h00-21h00	'Women in leadership' dinner	Westin Hotel
21h00-01h00	Universal healthcare party	TBC

Programme Wednesday

Wednesday, 24 July 2019

'Quality should not be the purview of the elite or an aspiration for some distant future; it should be the DNA of all health systems.'

Time	Session Description	Venue
08h00-08h30	Networking - Tea on arrival	Exhibition Hall 8 & 9

Health system reform – <i>blueprint for change</i>		Hall 10
	<p>Panel discussion:</p> <ul style="list-style-type: none"> - Modernising health professionals' regulatory bodies - Overcoming policy and regulatory gaps for Universal Health Coverage Alignment - What do we want with the Medical Schemes Bill? - COFI Bill: Opportunity for reform or another hurdle! - Post Health Market Inquiry: ?????? - NHI Update <ul style="list-style-type: none"> ▪ Revised Prescribed Minimum Benefits 	
12h30	Closure
